

LED PROFILE

SPECIFICATIONS

- The outer shell is used to support and protect the LED light strip to prevent dust, moisture and other external factors from entering the inside of the light strip.
- High-quality aluminum metal light strip profile, good thermal conductivity and heat dissipation, extending the service life of LED light strips
- Lightweight design, strong and lightweight, corrosion-resistant, easy to carry, install and maintain.
- Multiple styles available, suitable for various LED light strips

Illumination of commercial spaces

KOSOON®

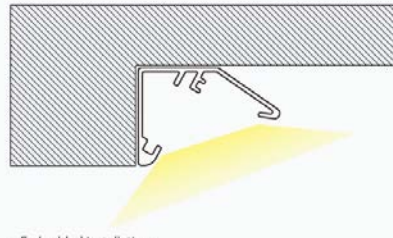

Adatto ad ambienti esterni o umidi,
resiste efficacemente all'ossidazione e
alla corrosione.
